IDENTIFIERS	*Washington

ABSTRACT

Fall 1982 higher education enrollment data for Washington State and 1983-1985 biennial enrollment targets are presented. In addition to providing enrollment data on the community college and four-year college systems, separate data are presented for each four-year institution. Data tables compare headcount forecasts, actual and contracted student credit hours, headcount enrollment, summer school enrollment, community college enrollment, and private college enrollments. Highlights include the following: fall 1982 headcount enrollment for the four-year system was 77,697 (a decrease of 1,943 from fall 1981); the four-year college freshmen for fall 1982 (16,997) represented the smallest freshmen class since fall 1976; the four-year college system's total number of transfers from the community colleges declined from 4,795 in fall 1980 to 4,154 in fall 1982; the number of high school graduates entering four-year institutions declined from 8,675 in fall 1980 to 8,525 in fall 1982; the four-year systemwide spring-to-fall retention rate rose from about 63 to 69 percent from fall 1976 through fall 1982; the 1982-1983 community college estimated full-time equivalent enrollment was 80,835; and the 1983-1985 biennium budget is lower than the 1981-1983 level due to fiscal constraints. EXPLANATION OF COVER GRAPH

The cover graph and table below compare the percent distribution of school years completed by persons 25 years and older in Washington State to those in the United States.

In both 1970 and 1980, Washington State residents 25 and older exceeded the national level of educational achievement. This is demonstrated by the median school years completed. In 1970 the median was 12.4 for Washington and 12.1 for the United States; in 1980, the medians were 12.7 and 12.5, respectively. Also, the percent of the aged 25+ population completing twelve (high school) or more years of school increased more over the decade for Washington than did the percent for the nation (an increase of 14.11 percent compared to 13.92).

PREFACE

The Higher Education Enrollment Forecast is prepared and published biennially by the Forecasting & Estimation Division of the Office of Financial Management to provide a consolidated data source for those concerned with and interested in higher education enrollment in the State of Washington. In addition to final Fall 1982 enrollment data, this year's publication contains the 1983-85 biennial enrollment targets for each of the public four-year institutions and the community college system. Various changes have been made in the content of this year's edition. We welcome any comments you may have on this publication so that we may strengthen it in the future.

Appreciation is expressed to the Registrars and Institutional Studies staff from each of the public institutions who provided data and assistance. Further acknowledgements to:

Dr. Walker Allen, The Evergreen State College
Dr. Ross Armstrong, Washington State University
Mr. Earl Hale, State Board for Community College Education
Dr. Eugene Omey, Western Washington University
Dr. John Purcell, Central Washington University
Dr. Tom Pyle, Eastern Washington University
Mr. Robert Thompson, University of Washington

1982 ENROLLMENT HIGHLIGHTS

This section of the report is divided into three parts. The first concerns the total enrollment picture of the four-year institutions. The second examines each of the four-year institutions separately. The third discusses the enrollment situation in the community college system.

Total Four-Year System

Headcount: Fall 1982 (77,697) saw a decrease of 1,943 in the four-year system from Fall 1981 headcount which was down 3,056 from the system Fall 1980 record high of 82,696.

Freshmen: Fall 1982 had the smallest freshmen class (16,997) since Fall 1976. This was the second year that the freshmen class declined in size from the Fall 1980 high of 18,961.

Graduate/Undergraduate Mix: The percent graduate students of total students has declined slightly almost every fall term since the Fall 1978 system high of 16.48 percent. In Fall 1981 (12,820), the percent of graduates increased slightly over Fall 1980 (13,209) by 0.13 to 16.10 percent although number of graduates decline slightly. In Fall 1982, the percent of graduates decreased even further to 15.65; the lowest percent of graduates since Fall 1974. Conversely, the percent of undergraduate students has increased.

Average Credit Hour Per Student: On a system-wide basis, the annual average credit hours per student has increased for the past three years: from a low of 13.06 in 1978/79 to 13.52 in 1981/82.

Transfers: The system total number of transfers from the community colleges declined from 4,795 in Fall 1980 to 4,154 in Fall 198[illegible].

Entering High School Students: The number of high school graduates entering four-year institutions declined from 8,675 in Fall 1980 to 8,463 in Fall 1981, but rose to 8,525 in Fall 1982. The actual number of public high school graduates in 1980/81 and 1981/82 was not available. Estimates showed that the number of graduates declined from 50,402 in 1979/80 to 49,332 in 1981/82. The rate at which the students entered four-year institutions (succession rate) declined from .1632 in Fall 1980 to .1615 in Fall 1981 and rose to .1632 in Fall 1982. The number of entering high school students in Fall 1982 did not rise to Fall 1980 levels, but the Fall 1982 succession rate did climb to its highest rate since Fall 1974.

Retention Rates: One of the more important enrollment variables to consider is the retention rate; i.e., the number of students who return to an institution the next fall. From Fall 1976 through Fall 1982, the system-wide spring-to-fall retention rate has risen continuously from approximately 63 percent to 69 percent.

Individual Four-Year Institutions

University of Washington

Fall 1982 headcount enrollment of 34,024 was down 735 students from Fall 1981. The decrease was evident in both undergraduate and graduate enrollments. However, Fall 1982 freshmen headcount was up 437 over Fall 1981 to 6,089 students. The annual average credit hours per student for 1981/82 (12.76) was down slightly from 1980/81 (12.80) and equal to that for 1979/80. The spring-to-fall retention rate declined slightly from 73.59 in Fall 1980 to 73.51 in Fall 1981 and 73.39 Fall 1982. The University of Washington has the highest retention rate of the six schools.

Washington State University

Fall 1982 headcount enrollment of 16,565 was down 261 students from Fall 1981. But, the Fall 1982 freshmen headcount of 4,469 was an increase of 141 over the previous fall. Even though total headcount decreased, the retention rate showed an increase of one percent to 69.77 percent, the highest recorded for WSU. The percent of graduates of total headcount declined to 13.25 percent, WSU's lowest level since Fall 1974. The 1981/82 annual average credit hour per student was 14.66, down from 14.68 in 1980/81 but still above the 14.63 average for 1979/80.

Central Washington University

Central's Fall 1982 headcount enrollment of 6,989 students was 145 lower than Fall 1981 enrollment. Even though total headcount was down, the number of Fall 1982 retained students increased by 605 over the previous fall to 4,047 students. This resulted in the largest retention percentage (60.21) recorded for Central. After a small increase of 42 from Fall 1980 to 1,916 in Fall 1981, freshmen headcount was down by 141 to 1,775 in Fall 1982. Graduate enrollment increased by 6 from Fall 1981 to 199 in Fall 1982. Fall 1981 was the first fall term since 1972 in which graduate enrollment was below 200 students. The 1981/82 annual average credit hour per student increased to 13.06, its highest point since 1973/74.

Eastern Washington University

Eastern, with a Fall 1982 enrollment of 8,156 students, was the only institution that experienced an increase in headcount enrollment over Fall 1981 levels (up 292). Eastern was up in a number of other categories also: transfers (up 39), freshmen (up 46), undergraduates (up 286), graduates (up 6) retention rate (up 2.23 percent) and annual average credit hour per student (up .40). Entrances from high school declined from 1,028 students in Fall 1981 to 1,007 students in Fall 1982.

The Evergreen State College

Evergreen's Fall 1982 headcount enrollment of 2,611 was down by 155 from Fall 1981 and 194 from Fall 1980. The decrease in enrollment from Fall 1981 was sustained entirely in undergraduate enrollment. The graduate headcount remained at 68 students. The graduate program at Evergreen was initiated in Fall 1980 with 40 students. Also decreasing were the number of freshmen (down to 618), retention rate (down to 54.87 percent) and transfers (down to 239). On the positive side, the annual average credit hours per student has increased from 13.27 in 1979/80 to 13.80 in 1981/82.

Western Washington University

Western's fall term headcount enrollment declined from 10,291 in Fall 1981 to 9,352 in Fall 1982. The decrease was true for both undergraduate (down 882) and graduate enrollment (down 57). Also declining from Fall 1981 were transfers (down 110) and freshmen (down 728). On the increase were the retention rate (67.40 percent in Fall 1982) and annual average credit hour load (14.25 in 1981/82).

The Community Colleges

Preliminary data indicates that the 1982/83 community college system estimated Full-Time Equivalents (FTE's) of 80,835 are down 6.1 percent from 1981/82 and 19.5 percent from the 1980/81 system high.

The mix between academic and vocational FTE's has changed from 47.4 percent vocational in 1979/80 to 45.1 and 45.2 percent in 1980/81 and 1981/82, respectively. The percent vocational is expected to rise to approximately 49 percent for the 1983/85 period.

Proposed Annual Average Target Enrollment
For the 1983-85 Biennium

The proposed enrollment target level for the higher education system for the 1983-85 beinnium is lower than that for the 1981-83 biennium level. The reduction is the result of fiscal constraints confronting the state.

Eastern Washington University was the only institution allowed enrollment growth in the target enrollments when compared to the 1981/83 proposed levels.

[1] System total FTE's for these years have been corrected by SBCCE. Revised individual school data are not currently available.

NOTE: Totals may not add due to rounding. Four-Quarter annual average; 8th day plus adds counting methodology used for 1970 through 1975; rolling 10th day counting methodology used for 1975-1977; community services FTE's included.

*Figures for 1970-71 do not include OTCC for District No. 12; figures for 1971-72 and subsequent years do include enrollments for OTCC; Garrett Heyns has been included in district total for 1975-76.

[1] Auditing students are not included in this series.

[2] Includes 180 and 158 students reported as off-campus students at McChord AFB and Fort Lewis, respectively, which are branches of St. Martins College.

[3] Beginning with Fall 1977, the UPS figures do not include off-campus enrollments. An analysis of comparable data indicated that total enrollment in private institutions increased by .31 percent from Fall 1976 to Fall 1977.

[4] Formerly Fort Wright College.
